

**Department of History, Sociology, Sport Science and Empirical Educational Research**

**Subject Sociology**

**Declaration of non-plagiarism (version 17.11.2023)**

Plagiarism occurs when a text, parts of a text or ideas from other works (books, journals, the Internet, etc.) are copied, translated verbatim or paraphrased without citing the source and thus falsely appear as own intellectual work.

I, \_\_\_\_\_ (first name, last name) hereby confirm that I am sole author of this term paper or coursework for the course \_\_\_\_\_

\_\_\_\_\_ (title of the course, lecturer) and that I have not used any aids or sources other than those stated.

I have identified all passages that have been quoted from other works, either verbatim, paraphrased or in terms of meaning, by providing the source (including secondary literature, the internet, other electronic collections of text and data) by referencing the source or secondary literature in line with the citation guidelines for my subject. This also applies to accompanying drawings, visual representations, sketches and similar items.

If I have used text-generating AI tools as aids, I understand that I am solely responsible for the accuracy of the content of the AI-generated text passages, as well as for referencing other people's wording and ideas in accordance with the principles of good scientific practice. I have referenced all AI-generated text passages and indicated the AI tool used as well as the prompts entered.

I understand that

- all cases of plagiarism will be reported to the Examination Committee of the Department
- each piece of work identified as a plagiarism is going to be graded with a failing grade (5,0)
- in case of serious or repeated plagiarism attempts, the Examination Committee may exclude the candidate from retaking the examination, with the consequence of losing the right to take the examination in the relevant degree programme. This may result in exmatriculation.

Konstanz, \_\_\_\_\_
